

SHAPE THE FUTURE — BECOME A TEACHER!

Training to teach isn't just about standing at the front of a classroom; it's about inspiring minds, fostering creativity, and making a difference in ways that last a lifetime.

Imagine sharing your knowledge & passions to guide the next generation and build connections that truly matter. Teaching is dynamic, rewarding, and gives you the chance to continuously grow and learn while empowering others to do the same.

You'll never have a dull moment — education is full of challenges that keep things exciting. So, if you're looking for a career that's meaningful, multifaceted and lets you leave your mark on the world, teaching could be your path.

Make a choice that changes lives.

Godalming Learning Partnership runs a PGCE with local schools and Winchester University's **Outstanding** ITT course
