

Busbridge Junior School Year 6

After school club Autumn term 2020

ComputerXplorers is delighted to be able to offer an after school club for year 6 this term. We will run the club on a Wednesday afternoon and will tackle two great activities during the term.

Get a great headstart in learning how to code using one of the key programming languages used by professional developers - Python. Tech giants such as Google, NASA and YouTube all use Python in critical applications within their businesses. Now is your chance to learn some real world coding skills while you create amazing graphics, program your own guessing game and have fun coding your own silly story generator.

Make some totally awesome video games!

This course is all about the design of video games rather than learning how to code. Learn how to design challenging puzzles and obstacles into different types of games using a simple drag and drop interface. Play each others games to get ideas for your own.

- ➡ Each lesson will last one hour after school on a **Wednesday**. Please collect your children at 4.35 pm from their designated collection point.
- ➡ Dates: Sept 16, 23, 30, Oct 7, 14, 21, Nov 4, 11, 18, 25, Dec 2, 9
- ➡ Cost for the 12 sessions is **£84 per child**.

How do I register?

To book a place on this course go our website (address below) and click on the 'book a class' button at the top of the page.
